

## February 14th, 2022: COVID-19 Update

As CDC guidance regarding COVID-19 evolves, our team at Fountain Inn Dental wanted to update our patients on our office policies and protocols regarding the virus. Below are the important measures you may want to familiarize yourself with before your next appointment:

- Our team will request that you complete a wellness questionnaire at your visit, and if deemed necessary based on the responses, we may kindly ask you to reschedule your appointment.
- Please reschedule your appointment if you or anyone in your household had any of the following symptoms in the last 14 days: sore throat, cough, fever, body aches, shortness of breath, and alterations in smell and/or taste.
- Please also consider rescheduling if you are not showing symptoms but have been in contact with someone in the last 14 days known or presumed to have COVID-19.
- If you are 18 years of age or older, we ask that you consider coming alone to your dental appointment. This helps us prevent overcrowding in our waiting areas and thereby, minimize potential transmission. After checking in at our front desk and completing any required paperwork, please use the provided hand sanitizer.
- While you wait to be called back for your appointment and during checkout, we **strongly** encourage that you wear a face mask. If you forget to bring your own mask, one of our team members would be happy to provide you a new mask.

We would like to thank you for choosing our office for your dental care needs and we aim to continue to provide you and your family the best dental care as we work through these difficult times. **Our team is fully vaccinated for COVID-19** and we will continue to do our part as healthcare providers to keep our community safe. Please reach out to us at (864)-601-9899 if you have any questions or concerns regarding your upcoming dental appointments.
